## HISTORY

**50**<sup>th</sup>  
ANNIVERSARY  
1963-2013

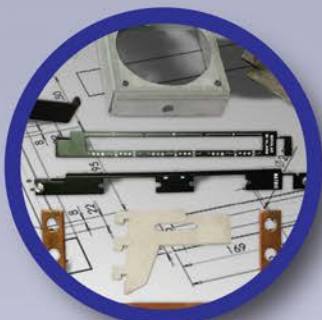

*COREN has always been entrepreneurial in spirit and family owned. We started in 1963 in Burlington, NJ as a precision sheet metal fabricator focused on the tight tolerances of the electronics industry. In its 50 plus years the company has moved and had a few changes in ownership. Coren has been in Bensalem, PA since 1997 and the name was recently modified from Coren Metalcraft to Coren Metal.*

*As the company has grown so has our capability. We offer a diverse range of metal fabrication solutions at affordable prices. Currently we serve a wide variety of industries with a full and growing set of capabilities. Throughout our history we pride ourselves in providing high quality products and building long lasting relationships with our customers. We "make it happen" and deliver on time. Over many years Coren has earned its reputation as a full service precision metal fabricator and powder coater, yet we also stand out among our competitors.*

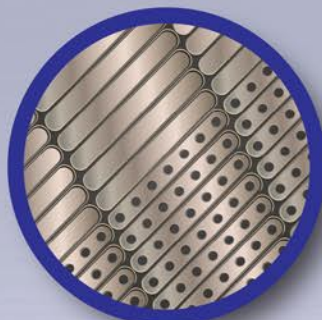

## OUR COMPETITIVE EDGE

*Many metal fabricators have similar equipment and claims. Coren has survived over 50 years and thrived with constancy of purpose and certain characteristics that include:*

- ✦ Customer Focus - flexibility to produce prototypes and take them to full production*
- ✦ Quantities - from single prototypes, to short runs, to thousands, or repeat JIT batch runs*
- ✦ One Stop Job Shop - with broad capability to eliminate hassles and hand offs*
- ✦ Speed & Confidence - earned by demonstrated ability to meet tough deadlines on time*
- ✦ Make It Happen - is our mindset*
- ✦ Project Management - we know projects must remain on budget and schedule*
- ✦ Quality - listening carefully to deliver to your requirements & exceed your expectations*
- ✦ Competitive Pricing - let us provide a quote within your budget*
- ✦ Experience & Expertise - our team includes engineers and staff with comprehensive knowledge of metal fabrication. We have many years of leading projects from concept through implementation*
- ✦ Innovation & Creativity - to assist with design or provide ingenuity for problem solving or efficient scale up*

## CUSTOMER BENEFITS

*What can we do for you?*

- ✦ **Metal Forming** - shearing, sawing, bending, cutting, punching, blanking, welding, spot welding, drilling, milling, material graining, and machining. Many processes automated and computer driven.
- ✦ **Laser Cutting & Engraving** - allows flexibility for fast prototypes and scale ups with minimal tooling.
- ✦ **Metal Assembly** - our team of welders and special equipment can meet most needs. We handle MIG, TIG on steel, stainless steel and aluminum. We can fabricate or install nearly any type of sheet fastener.
- ✦ **Metal Finishing** - special surfaces to your specifications including grinding, deburring, sanding, tumbling, graining and specialty finishes.
- ✦ **Powder Coating** - custom or stock colors. Our in house overhead conveyors and multiple ovens handle large volumes with top quality. No hand offs or fumbles!
- ✦ **Assembly** - we will also assemble non-metallic parts into subassemblies or final assembly and test it if needed. We also handle hardware installation, kitting, and wiring.
- ✦ **Full Service** - including hardware installation, all types of assembly, product labeling, packaging, package labeling, palletizing, shrink wrapping, and shipping. From small boxes to pallet loads we do the full range.
- ✦ **Flexibility** - if you want something else done; just ask. Our flexibility is legendary, hence options are too numerous to list.
- ✦ **Outsourced Partners** - we also offer plating, machining, anodizing, painting and any of our own processes can be outsourced at peak times with our long time outsourcing partners.

## TYPES OF METAL & STOCK

- |                       |                           |
|-----------------------|---------------------------|
| ✦ Carbon Steel        | ✦ Sheets                  |
| ✦ Stainless Steel     | ✦ Plates up to 1/2"       |
| ✦ Aluminum            | ✦ Wire                    |
| ✦ Brass               | ✦ Tubing (Round & Square) |
| ✦ Copper              | ✦ Piping                  |
| ✦ Others upon request | ✦ Others upon request     |

# INDUSTRIES SERVED & PRODUCTS

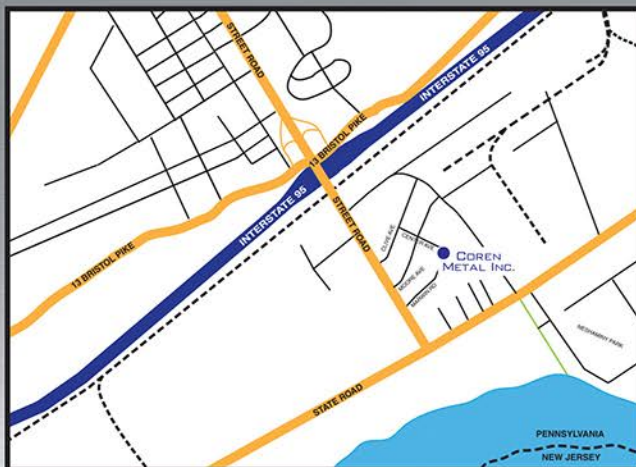

- ✦ Sheet Metal formed to any shape up to 10'
- ✦ Brackets, panels, chassis, boxes, enclosures or frames
- ✦ Retail display and POP point of purchase metal
- ✦ Exhibit metal or museum quality
- ✦ Building materials, fencing to finishes
- ✦ Metal cabinets and storage
- ✦ Electrical or electronic enclosures
- ✦ Construction products, repeat use or one up custom parts
- ✦ Metal lighting fixtures
- ✦ Custom furniture
- ✦ Prototypes, let's start soon, and then scale up!
- ✦ Repair or custom, from lawn mowers, railing, puzzles, machine guards
- ✦ Many other services offered - Please ask if it is not listed.

## FACILITY & EQUIPMENT

Over 20,000 square feet facility, with 18' ceilings. Easy loading and unloading with our forklifts, overhead conveyors and warehousing.

- ✦ High speed lasers with shuttle tables
- ✦ Powder Coating in house electrostatic system, overhead conveyors and multiple ovens
- ✦ Computer numeric control CNC driven punch presses
- ✦ Robotic auto sheet loading equipment
- ✦ Computerized turret & single punch presses
- ✦ CNC press brake forming
- ✦ Hardware fastener insertion
- ✦ Shearing
- ✦ Full machine shop to include, milling, turning, drilling, cutting
- ✦ Sawing, cutting & mitering
- ✦ High speed sanders & grinders
- ✦ Welding shop - MIG, TIG, ARC
- ✦ Hand presses
- ✦ Notchers & hole punching
- ✦ Grinding, deburring, sanding & tumbling
- ✦ Tube bending
- ✦ Plate rolling
- ✦ Automated stretch wrapping
- ✦ Automatic PEM Serters

**Location:** 600 Center Ave., Bensalem, PA 19020  
Ideal location in Bensalem PA., just minutes from I-95 with easy access to both NJ and PA Turnpikes. We are minutes off I-95 at (Exit 37 Street Road). Just minutes north of Philadelphia. Less than a half hour to Trenton and about one and a half hours to New York City.
